

Approved at CES Oversight on July 15, 2021:

Pg. 25, Prioritization, after Youth Allocation section:

#### Veterans

Veterans may be automatically prioritized down for Veteran-specific RRH resources if no Veteran-specific PSH resources are available. What this means: Veterans may be prioritized down for SSVF referrals if VASH resources are not available.

Pg. 31, Housing Navigation, under Pre-Referral Navigation: Number Next List Meetings, “Ensuring document readiness to the greatest extent possible...”

Note: Chronic homeless verification (CHV) forms and disability verification (DVL) forms are required prior to PSH referrals at this time.

Pending CES Oversight Vote 10/21/2021:

Pg. 29, Referral Process, under Transfers, “If the current housing provider is unable to continue serving a household...”

If a program is terminated or otherwise ends, the provider ~~should work with~~ must inform Partners in Care and the CES Administrator no later than 3 months of the closure date or as soon as this information is available to ensure that current participants are not exited to homelessness.

Upon sharing this information, participants who are enrolled in a program that is terminating may be prioritized for their designated housing pathway ahead of other households on the BNL in the same housing pathway.
