Prior to starting the YHDP Replacement Project Listing, review the CoC Priority Listing Detailed Instructions and CoC Priority Listing Navigational Guide available on HUD's website.

To upload all YHDP Replacement project applications submitted to this Project Listing, click the "Update List" button. This process may take a few minutes based upon the number of YHDP renewal projects submitted by project applicant(s) to your CoC in the e-snaps system.

You may update each of the Project Listings simultaneously. To review a project on the YHDP Replacement Project Listing, click on the magnifying glass next to each project to view project details. To view the actual project application, click on the orange folder. If you identify errors in the project application(s), you can send the application back to the project applicant to make necessary changes by clicking the amend icon. It is your sole responsibility for ensuring all amended projects are resubmitted, approved and ranked (if applicable) or rejected on this project listing BEFORE submitting the CoC Priority Listing in e-snaps.

As stated in the FY 2023 NOFO, CoCs must rank all YHDP Replacement applications for projects replacing YHDP Renewal projects that HUD initially funded in the FY 2016 (Round 1) YHDP Competition.

Oahu Continuum of Care

Our mission is to eliminate homelessness through open and inclusive participation and the coordination of integrated responses.

The following project names and descriptions are included in the Partners In Care (Collaborative Applicant for the Oahu Continuum of Care) Certificate of Consistency with the Consolidated Plan for the FY 2023 Continuum of Care Program Competition.

Agency	Project Title	Project Description	Renewal/New	Project Type	Grant Term (Years)	Beds/ Units	Awarded
Aloha United Way	Consolidated PH 2023	The 2022 Consolidated Permanent Housing (PH) grant for Honolulu combines the strengths of three subrecipients: Kalihi-Palama Health Center (KPHC), Steadfast Housing Development Corporation (SHDC) and the Institute for Human Services, Inc. (IHS). This renewal will assist homeless and chronically homeless persons with disabilities through the provision of 304 permanent housing units. All three projects focus on increasing self-determination and independence by assisting participants with housing placement, employment, stability and retention. New admissions qualify for these programs based on vulnerability via VI-SPDAT score in addition to the condition of chronic homelessness.	Renewal	PH	1	241/ 235	\$4,729,377
Alternative Structures Internation al	ASI Permanent Supportive Housing HI- 501	ASI's PSH for Families provides housing placement, rental assistance and support services for 13 chronically homeless families in Leeward Oahu. The goal is to assist chronically homeless families who are unsheltered or in emergency shelters to get into permanent housing as quickly as possible and maintain housing stability. A case manager will interface	Renewal	PH	1	50/13	\$357,769

Child and Family Service	DV Coordinated Entry Project FY2023	Maintain a database that allows DV Providers to control who has access and view-rights to client information; it complies with all HUD- required technical specifications and data fields in HMIS and is programmable to collect data with the most up-to-date HMIS Data Standards. It has the functionality necessary to de-duplicate client records, in order to provide an aggregate client count by project type (provided the aggregate data does not present characteristics that could be personally identifying); and has the ability to generate all reports required by federal partners, such as the HUD-CoC APR and the HUD-ESG CSV for the e-CART reporting tool, and; allow for customizable fields or client screens that permit VSP's to track clients in meaningful ways. Family Promise of Hawaii	FY23 – Family Promise DV Rapid Rehousing	The goal of the Family Promise DV Rapid Rehousing program is to help households fleeing domestic violence (DV) transition from homelessness to permanent, stable housing through medium- term rental assistance alongside victim-centered, trauma- informed case management. The main goals of the program are to help families experiencing DV and homelessness access safe and secure permanent housing, provide victim- centered and trauma- informed supportive services to help families heal, and to connect families with comprehensive wrap- around support to ensure	Renewal New	PH	1	78/28	\$976,786

Gregory House Programs	Anuenue Pathway to Housing	A one-year joint transitional housing and permanent housing — rapid re-housing program. The transitional housing component is specifically for individuals diagnosed with HIV/AIDS (and oftentimes dually and triply diagnosed with substance abuse and mental health disorders). According to the State of HI Dept. of Health, in the period from 2016-2018, 6% of newly HIV diagnosed persons were homeless. In this same period, of 334 out-of-care individuals (defined as not having recorded lab results tracking CD4 and/or viral load within	Renewal	Joint TH & PH- RRH	1	89	\$680,937

		a year), 7 were ever homeless, 3 were transitionally housed, 23 were at risk of becoming homeless. This data demonstrates an intricate correlation between homelessness and HIV. In HI and nationally, living with HIV significantly increases one's risk of becoming homeless and for the homeless living with HIV, there are significant health risks associated with not being in care and managing treatment. In order to achieve permanent housing solutions for this very high risk population, it is essential to get them transitionally housed and linked to supportive services.					

Gregory House Programs	Anuenue Elua	An initiative comprising a continuum of services focused on at-risk LGBTQ+ individuals throughout city and county of Honolulu who are homeless. The project is comprised of two components (1) an individual five-bedroom house in collaboration with RYSE and (2) 13 PH-PSH rent subsidy vouchers linked to case management services administered by Gregory House Programs. Mental Health Kokua	Safe Haven	Safe Haven's primary focus is to provide assertive case management and wraparound support while immediately moving vulnerable individuals into housing. Hawaii's severe housing shortage impairs fidelity to the Housing First model, and Safe Haven serves as a critical proxy for permanent housing to mitigate the ongoing trauma of homelessness with a priority to transition into permanent housing. Safe Haven's specialization in targeting psychiatrically impaired homeless individuals assists the most vulnerable and highest service utilizers of this population. The facility is an SRO, with 24-hour residential staff providing assistance and training on the skills necessary for independent living.	Renewal	PH	1	25/25	\$864,197
